

We ask you to be respectful of the environment, the local culture and that you enjoy the city responsibly and help us keep it clean and tidy.

If you come on bicycle, **use caution on the narrow streets** of the Old Quarter, use the cycling paths and respect the traffic rules.

For those **visiting us in a group**: stay close together and limit group size to a maximum of 25 people as indicated in the civility ordinance. If you notice congestion in certain points, please wait or choose an alternative route.

The use of **megaphones, speakers or any other devices that raise sound volume is strictly prohibited**, to ensure neighbourhoods rest and normal coexistence, regardless of the time of day.

The city has **tourist services, accommodation, restaurants and authentic, unique, local shops**. Take advantage of it and steer your consumption to boost quality, responsible and local products!

Girona *recycles*

Girona is working to reduce and recycle its waste. Among everyone, residents and tourists, this is how **we contribute to a cleaner city**.

In the **Old Quarter**, refuse is collected from temporary areas: points distributed around the neighbourhood where each evening, the appropriate bins are brought out for collecting, according to the established schedule.

It is **prohibited to dispose of refuse bags in public waste-paper bins** or anywhere that is not one of the waste collection points.

To take out the trash, you need to have the **card/key-chain** that lets you open the temporary areas, the containers and the emergency areas located on the **streets around the Old Quarter**.

Please place your waste in the temporary areas between **8:00 pm and 11:00 pm**, as indicated in the calendar below.

Temporary Areas Schedule

MONDAY	● ● ● ●	 ORGANIC
TUESDAY	No collection	 PAPER AND CARDBOARD
WEDNESDAY	● ● ● ●	 GLASS
THURSDAY	No collection	 PACKAGING
FRIDAY	● ● ● ●	 NON-RECYCLABLE REFUSE
SATURDAY	No collection	 SANITARY WASTE
SUNDAY	● ● ● ●	

You may be fined if you do not comply with the waste collection system. You can see the locations of the temporary areas here.

Welcome to Girona

EN

A taste of Girona

Girona is a city with more than *two thousand years of history* and a lot to discover.

From its Cathedral, with the world's widest nave, to a rich cuisine that will not disappoint you. Girona is synonymous with culture, tradition, sport and nature.

Girona is a welcoming city and **the Old Quarter is a lively and dynamic space with great heritage and historical value** in which residents, workers and visitors coexist.

Cycling in the Old Quarter

In Girona we get around well on *bicycle*

Girona is supporting use of the bicycle as a *vehicle for urban mobility*.

However, we would like to remind you that the Old Quarter is a priority area for pedestrians and **traffic rules** must be followed to guarantee safe coexistence with pedestrians.

Low emissions zones in Girona

Since the 15 of September of 2025, the city of Girona has a *low emissions zone (ZBE)*.

The vehicles that can drive around within the schedule of the ZBE of Girona are:

Vehicles **with the environmental label** from the DGT.

Vehicles **without the environmental label** from the DGT that enter **24 days maximum in a year** (no authorization required, and excluding weekends and public holidays).

Vehicles **without the environmental label** from the DGT **registered in Girona before 2024**.

Foreign-registered vehicles planning to enter the ZBE in Girona **over 24 days** in a year, can request authorization through the form:
<https://zbe.cat/register-foreign> -
<https://zbe.cat/autorizations/FOREIGN>

Other exceptions: www.zbe.cat/autorizations

Cycle with the streets' traffic flow, do not ride against the traffic.

Ride only where it is permitted to do so; **you cannot cycle on the pavement**.

Get off your bicycle and walk when you cross the bridges and other places where there are lots of people.

Keep **at least 1.5 metres** from building façades.

Observe the speed limits:

6 km/h in areas where pedestrians have priority, such as the Old Quarter.

20 km/h in the cycle lanes.

The same speed limit as for motor vehicles when cycling on roads

In the Old Quarter and a few other streets in the city, **pedestrians have priority**; please respect this.

Park your bicycle in the **parking facilities provided**. Do not leave them stacked up one against the other in the same place; they may block the way

Remember that you must always follow the direction of traffic of the road. Get off your bicycle and walk to move in the opposite direction.

You may be fined if you do not obey the traffic rules.

Your experience is important:

Take a short survey and help us improve tourism!
